EXPERIENCE

Santander Tecnología

2020 – Present

Software Engineer

- Developed web microfrontends with React and mobile microapps with React Native for the bank's Investments area.
- Built and maintained APIs using NestJS to support investment product features.
- Collaborated with cross-functional teams and external partners to design and ship new features, improving the user experience for investment products.

Montagne Outdoors

2019 – 2020

Web Developer

- Improved the e-commerce platform by integrating the Mercado Pago API to enable card payments.
- Developed and maintained features using a PHP, SQL, and JavaScript stack.

Instituto Médico Alexander Fleming

2017 – 2019

Full Stack Developer

- Modernized legacy applications by migrating to React and Node.js.
- Developed SQL queries, scheduled jobs, and reports using QlikView.

EDUCATION

Universidad Tecnológica Nacional

2011 – 2017

Higher Technical Certificate in Programming
